More Choice

Our open protocol MxPro 5 and Go fire panels work with the leading wireless device protocols so you can choose the best solution for your site.

To find out more, contact your regional sales manager
or email enquiries@advancedco.com

More Versatility

We support fully wireless or wired/wireless hybrid solutions. So, whether you're extending wired systems on sites where downtime's not an option, protecting sensitive sites where re-wiring would be too disruptive or you simply need a fast-fit temporary install, we've got you covered.

More Standards peace of mind

MxPro 5 and Go panels are rigorously tested and approved to EN 54 Parts 2 and 4 and carry the prestigious FM Approved mark
